

# SAURAB NEGI

## CAREER OBJECTIVE

As a highly motivated Computer Science student, I possess a formidable blend of analytical prowess, good communication abilities, and interpersonal skills. I am seeking opportunities in a growth-oriented company where I can leverage my skills to benefit the company while having the scope to further develop my abilities. I am eager to contribute to innovative projects, collaborate with talented professionals, and gain real-world experience in software development and technology.

## PROJECTS

### • Food order website | [Link](#)

This Food Order website, built with the MERN stack, offers a seamless experience for food lovers. Users can easily sign up and sign in to browse top dishes nearby, filter by categories such as salads, noodles, pasta, and desserts, and add their favorite items to the cart. The site features a smooth checkout process through StripeJS for secure payments. Once an order is placed, users can track their food's status in real-time, from preparation to delivery. Enjoy a convenient and delightful dining experience right from your home!

### • Ecommerce Website | [Link](#)

Our Ecommerce clothing website, built using the MERN stack, offers a seamless shopping experience for men's, women's, and kids' apparel. Browse by category, add your favorite items to the cart, and easily proceed to checkout. Enjoy a user-friendly interface and secure transactions for all your fashion needs.

### • TalkBot | [Link](#)

It is an open AI chat application with a modern UI/UX website built using React.js. It promotes seamless collaboration, featuring parallax animations and responsive design for optimal functionality on all devices.
